Bachelor of Vocation

in Agriculture

About the Programme

B.Voc. (Agriculture) is a course designed in the area of agriculture and allied activities. This programme is a mix of farm, non-farm activities, agriculture extension and micro-financing to create skilled manpower who can be absorbed in various industries. In addition to this, it will also create entrepreneurs interested in agriculture and allied areas. The programme covers skilling of collectivisation, organic farming, dairy, warehousing, micro-finance, micro insurance and agriculture extension modules. This programme will bridge the gap requirement of skilled manpower in this sector.

Programme Model & Pedagogy

SVSU has built a strong partnership with the Industry to facilitate students' training, employability and entrepreneurship through the On-the-Job Training (OJT) approach. The university has designed, developed and deployed Industry Integrated Dual Education Model (IIDEM) that enables students to "earn-while-learn" and provides an opportunity to enhance their qualification with the flexibility of entry and exit into a programme. SVSU has conceptualised the IIDEM programme, which is designed in such a manner that 60 percent of the credits are earned while working on the OJT and the rest 40 percent come from the theoretical and conceptual training. The entire pedagogy is designed to develop an application-based learning that makes students job-ready by earning industry work experience and learning the technical concepts hands-on.
