Diploma in German Language

About the Programme

The Diploma in German Language is a 3-semester program, where the students will go through the classroom training during the first 6 months, i.e. first semester and will be offered a one year paid internship with Concentrix post successful completion of the course. The objective of the programme is to offer a job-oriented course and 100% job assistance to the students, where in the students don't really have to start looking for a job post completion of the course, rather start the course with a complete focus of where they are going to work after the completion of the course

Programme Model & Pedagogy

SVSU has built a strong partnership with the Industry to facilitate students' training, employability and entrepreneurship through the On-the-Job Training (OJT) approach. The university has designed, developed and deployed Industry Integrated Dual Education Model (IIDEM) that enables students to "earn-while-learn" and provides an opportunity to enhance their qualification with the flexibility of entry and exit into a programme. SVSU has conceptualised the IIDEM programme, which is designed in such a manner that 60 percent of the credits are earned while working on the OJT and the rest 40 percent come from the theoretical and conceptual training. The entire pedagogy is designed to develop an application-based learning that makes students job-ready by earning industry work experience and learning the technical concepts hands-on.
