SKILL UNIVERSITY

Diploma in

Piping Technology

About the Programme

Diploma (Piping Technology): NSQF Level-5 (1 Year), in Dual Education System at SVSU in association with Jaquar Foundation enables students to realize complexity of processes handled at Project sites and have hand on experience of On Job Training (OJT) at the Project sites of our Industry Partner. This programme focuses on training in plumbing for residential, commercial, and industrial systems. The Plumbing programme will provide students with technical understanding and skills development and integrates theory with practical experience.

Programme Model & Pedagogy

SVSU has built a strong partnership with the Industry to facilitate students' training, employability and entrepreneurship through the On-the-Job Training (OJT) approach. The university has designed, developed and deployed Industry Integrated Dual Education Model (IIDEM) that enables students to "earn-while-learn" and provides an opportunity to enhance their qualification with the flexibility of entry and exit into a programme. SVSU has conceptualised the IIDEM programme, which is designed in such a manner that 60 percent of the credits are earned while working on the OJT and the rest 40 percent come from the theoretical and conceptual training. The entire pedagogy is designed to develop an application-based learning that makes students job-ready by earning industry work experience and learning the technical concepts hands-on.

Programme Highlights

- Application-based experiential Learning
- Dual Education Model
- Learn & Apply Skills
- Entrepreneurial Skills
- World-class OJT Facility
- Placement Support
- Highly Subsidized Fee
- Leadership and Supervising
- Theory, Practice & Rigorous Curriculum
- Work Integrated Learning Options

Eligibility

10+2 (PCM) OR 10+2 and L4 certificate in relevant field OR 10th plus (2 Years or 3 Years) Diploma OR 10th plus I.T.I. (2 Years) with one language subject (Hindi or English)

DO YOU WANT TO SKILL YOURSELF
FOR A REWARDING CAREER

GET READY FOR INDUSTRY 4.0 REVOLUTION

OJT

OJT Areas

Pipe fitting and sanitary ware fittings, Pressurised Systems, Maintenance of piping system.

Shri Vishwakarma Skill University

In line with Skill India Mission, the Government of Haryana has established Shri Vishwakarma Skill University under the Act 25 of 2016. The University is aiming at providing structured skill qualification programmes aligned with the existing and emerging job-roles in the Industry. The programmes have been mapped with NSQF levels that facilitate vertical mobility from Certificate to Doctoral level. SVSU aims at providing pathways to the Learners from school level to higher education level through a skill-based qualification framework for their career progression.

Industry Partner

The Jaquar Group, established in 1960, is a company that sells showers, shower enclosures, sanitary ware, flushing systems, wellness products, concealed cisterns, water heaters, and lighting. It employs over 9800 people including 1200 service technicians and runs 5 manufacturing facilities and 1 in South Korea. Jaquar Foundation was established in the year 2015 with the mission to continually spearhead Corporate Social Responsibility initiatives of the Jaquar Group for the betterment of society. The Key CSR objectives of Jaquar Foundation include: Helping to build a community that is economically viable and socially harmonious and creating sustainable livelihood. Jaquar Foundation's activities have already covered the fields of education, health, sanitation, rural development and skill development..

Note: OJT areas are subject to change depending upon availability of OJT areas
