Message From Vice Chancellor

Sh. Raj Nehru

"The more importance we give to skill development, the more competent will be our youth."

Shri Narendra Modi,
Honourable Prime Minister of India

I welcome all of you to India's very first Skill University – the Shri Vishwakarma Skill University.

From times immemorial, India has been fêted the world over for mastery in different skills, be it the mordant dyeing technique for cotton fabrics or powder metallurgy as seen in Ashoka Pillar in Delhi. The Government of Haryana launched the university in 2016 at Dudhola village in Palwal district. Committed to scholarly excellence and student success, our aim is to invest significantly in education, research, and skill development. We are deeply committed to the work we do in broadening participation in college- and higher-level education that leads to a more diversely skilled community.

All our programs prepare our students to become skilled leaders with the moral depth and intellectual intensity necessary to meet the challenges of a time of critical transition in society. Our faculty is unique in that almost all of our members have been awarded her/his PhD degree by reputable universities. The university can owe the success of all offered educational programs in large part to the dedication of each faculty member and the hard work and persistence of our students.

It is the mission of SVSU to train our students to strengthen their capacity to observe, analyse, and participate in skill acquisition and development.

The university shall endeavour to meet and match the skill demands of Haryana in several sectors.

As the focus is on doing-while-learning, the university shall enable experiential learning via:

- flexible entry & exit
- credit accumulation & transferability
- blended-learning methodologies of simulation & gamification

A vital goal of the teaching imparted here is emphasis on 'Entrepreneurship and Skills of Tomorrow'.

SVSU operates in an atmosphere of genuine openness to knowledge attainment that cultivates the talents of our scholars and creates a culture that builds community from within. We constantly review and reinvigorate efforts to promote collaboration, student agency and well-being, and interdisciplinary research.

Our highest priority is to prepare the next generation of skilled workers to solve entrepreneurial, manufacturing, and workplace challenges while providing the training our students need to compete and excel in the workforce.

We aim at developing strong core facilities by training students in equipment usage and interpretation, exploring new educational directions and methodologies, and bringing student groups together with common interests but diverse experiences. Our students are guided to attain the ability to perform in challenging environments, develop a strong sense of identifying opportunities, have a positive attitude, and light that fire in the belly to excel wherever they go.

We hope you shall make the most of the opportunities presented by the university to expand your knowledge to the maximum and gain immensely from the imparted education.

With that in mind, I would like to cordially invite all of you who are interested in expanding your knowledge and enriching your careers to explore our university and join us for a life-changing academic experience.

University Logo

LOGO - The logo of Shri Vishwakarma Skill University has been thoughtfully designed by young minds, who think freely and view things from different perspectives. It is an outcome of an open design competition which was held by the University in 2017.

The motto "योगः कर्मसु कौशलम्" has been adopted from Shrimad Bhagwat Gita (Chapter 2. Verse 50), meaning yoga is excellence at work. Any work becomes valuable if done with full concentration, dedication and skill.

The blue colour of the logo denotes that the Shri Vishwakarma Skill University is committed to uphold the dignity of skill and labour. Seven dots represent saptarishis in the universe who are collectively bringing the unrevealed wisdom, philosophy, science and knowledge of cosmos to connect with human mind to skill them to think out of box, with infinite limits.

The centrepiece collectively represents the spirit of ideation, creativity and progress encompassing the best of traditional and modern values and wisdom. The pen nib and spanner remind us to work with own hands to acquire knowledge and skill, till perfection is achieved. Wi-Fi symbol and the monitor stand for the global connectivity and digital learning. The red arrow is indicative of sustained progress with adaptability to change. It also bridges the shift between our roots and the future via the means of technology.
